Plan

- 1. LEGAL STARTING POINTS
- 2. QUESTIONS
- 3. DEVELOPMENTS

Faculté de droit et de criminologie

Institut pour la recherche interdisciplinaire en sciences juridiques

Centre de recherche interdisciplinaire "Droit, entreprise et société" - Jean Renaud CRIDES

1.LEGAL STARTING POINTS

- DIRECTIVE 2017/...OF THE EUROPEAN PARLIAMENT & OF THE COUNCIL AMENDING DIRECTIVE 2007/36/EC AS REGARDS THE ENCOURAGEMENT OF LONG-TERM SHAREHOLDER ENGAGEMENT
- DIRECTIVE 2016/2341 OF THE EUROPEAN PARLIAMENT & OF THE COUNCIL of 14 DECEMBER 2016 ON THE ACTIVITES AND SUPERVISION OF INSTITUIONS FOR OCCUPATIONAL RETIREMENT PROVISION

Centre de recherche interdisciplinaire "Droit, entreprise et société" - Jean Renaud CRIDES

2. QUESTIONS

- Should institutional investors take SRI factors into consideration in their financial investments policy?
- Is this coherent with the classical fiduciary duties of funds' governing bodies and their financial responsibility?
- What about transparency requirements; are they enough?

Faculté de droit et de criminologie

Institut pour la recherche interdisciplinaire en sciences juridiques

Centre de recherche interdisciplinaire "Droit, entreprise et société" - Jean Renaud CRIDES

3. DEVELOPMENTS

- **International background:** the "United Nation's Global Compact" and the "United Nation' supported Principles for Responsible Investment"
- **The Freshfields Report:** taking environmental, social and governance considerations (ESG) into account in institutional investment may not only be legally acceptable under certain circumstances, but is legally binding on some occasions

Centre de recherche interdisciplinaire "Droit, entreprise et société" - Jean Renaud CRIDES

- According to the Freshfields' approach, taking ESG into account in institutional investment may not only be legally acceptable under certain circumstances, but is legally binding on some occasions.
- → ESG considerations might be taken into account when purely financial considerations have been exhausted.
- → ESG considerations may have a financial relevance - ESG affect positively financial performance.
- → ESG considerations might be taken into account when the beneficiaries express a consensus therefore.

- **Critics**

- ESG and fiduciary duties
- a situation where the financial characteristic of two investments are exactly the same, so that trustees could choose the one integrating ESG considerations, is almost impossible
- the possible financial relevance of SRI is debated
- the consensus argument is difficult to handle

Centre de recherche interdisciplinaire "Droit, entreprise et société" - Jean Renaud CRIDES

- **Other Avenues?**

- the extension of disclosure requirements concerning SRI.
- the allowance of tax incentives for appropriate consideration of ESG factors.
- the introduction of liability techniques.
- the compulsory appointment of beneficiaries' representatives in the governing body of the institutional investors.
